BULBS, SEEDS, PLANTS

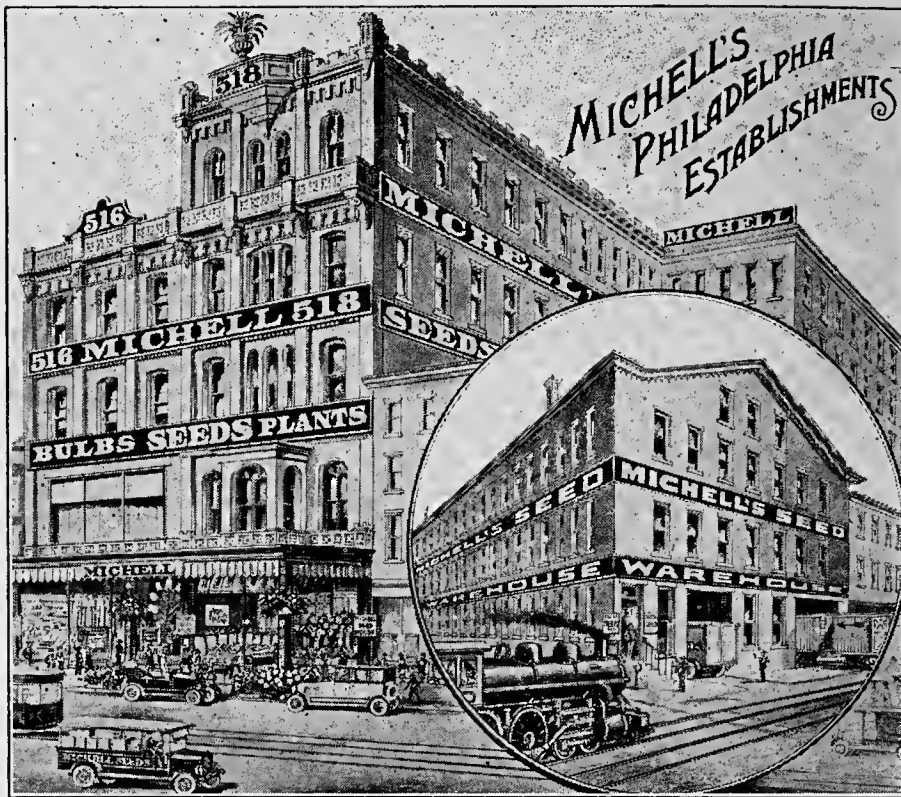

Supplies for Florists and Market Gardeners

Henry F. Michell Co.

516 AND 518 MARKET STREET

PHILADELPHIA, PA.

PLEASE NOTICE

Orders at prices in this catalog will be filled only for those engaged in the florist, landscape gardening and market gardening business, or others entitled to such prices. We reserve the right to refuse to fill orders for others not entitled to these prices.

As a protection to our customers who are entitled to wholesale or florists' prices we ask that they do not lend this catalog to persons not entitled thereto. It will save us considerable embarrassment. Tell them to send for our "Seed Book"—Free upon request.

NOTICE TO CUSTOMERS IN CANADA AND OTHER COUNTRIES OUTSIDE OF THE UNITED STATES

In remitting for purchases at the time of ordering, or when paying accounts by reason of the Exchange we ask that you please send P. O. Money order in U. S. Funds or a check or draft on a New York or Philadelphia Bank in par U. S. Funds.

WE ESPECIALLY INVITE CHARGE ACCOUNTS

A charge account is more convenient than to remit for each order at the time it is sent us; you pay no more for your goods by reason of this accommodation. As to our responsibility, we refer you to *Dun's or Bradstreet's Mercantile Agency* or any bank or trust company.

When sending your first charge order, refer preferably to someone in either your own or our line of business with whom you have a charge account. This frequently saves delay.

DISCOUNTS

On bills for Flower Seeds, Vegetable Seeds and Bulbs, a discount of 2% for payment 10 days from date of bill may be deducted; 5% cash discount is allowed on all orders of Flower Seeds and 3% cash discount on all orders of Vegetable Seeds and Bulbs when remittance accompanies the order, unless on items specially quoted or priced. Cash discount above does not apply to dealers orders, unless so stated in quotations or otherwise. All other goods are strictly net, as are also bills for goods supplied under special quotations unless otherwise agreed upon.

SPECIAL NOTICE.—We pay postage on all orders for Vegetable and Flower Seeds provided the order calls for packets, ounces, quarter pounds or pounds (beans, corn, peas and grass seeds, bulbs, plants and sundries are not included). If these are wanted by mail, remit for postage the amount named in connection with the item to the first and second zones; for other zones add additional postage. All postage is charged on dealers orders regardless of items ordered.

PARCEL POST RATES.—On Seeds, Bulbs, Plants or Roots not exceeding eight (8) ounces in weight, the postage charge is 1c. for each two (2) ounces or fraction thereof; on sundries or other merchandise not exceeding (8) ounces in weight, the postage charge is 1½c. for each two (2) ounces or fraction thereof. Seeds, Bulbs, Plants, Roots, Sundries, etc., weighing over eight (8) ounces, are sent at zone rates.

If Special Delivery is wanted an additional 15c. is required on packages weighing up to two (2) pounds—25c. on packages weighing more than two (2) pounds and up to ten (10) pounds—35c. on packages weighing more than ten (10) pounds, which also includes special banding and transportation as first-class mail.

If remittance accompanies order, a sufficient amount should be included to cover the extra charges—if ordered to be sent by either of the methods as stated above.

We do not make shipments of Plants or Cold Storage Bulbs C. O. D. and shipments of goods C. O. D. outside of our automobile delivery limits can only be made that way provided a partial remittance is sent with the order to guarantee that the goods will be accepted on arrival.

IMPORTANT NOTICE.—All shipments of plants, perishable stock and cold storage bulbs are made at buyers' risk only.

If such shipments arrive in bad condition, accept them and receipt for them accordingly, and make claim for your loss on the transportation company. We, of course, will hold ourselves ready to assist you in any possible way. It has been found that claims can be collected more readily by the person receiving the goods than by the shipper.

Our custom to guarantee the **actual arrival** of goods (except at points where there is no freight or express agent) will still be continued, and claims for loss or **non-arrival** of merchandise **not perishable** will, as in the past, be cared for by us, so you run no risk of having to make claims for lost goods.

CONDITIONS OF SALES

All contracts, sales and acknowledgments of orders are contingent upon crop failures, our ability to import and make deliveries in conformity with the "Plant Quarantine Act," partial deliveries by growers or manufacturers, strikes, or other unavoidable causes beyond our control, clerical errors included; also unsatisfactory credit standing. All quotations are subject to market changes and goods being unsold on receipt of order. Henry F. Michell Co. give no warranty, expressed or implied, as to the description, purity or productiveness of any seeds, plants or bulbs they send out, and they cannot be in any way responsible for the crop. If the customer does not accept the goods on these terms, he must notify us at once, and we will give instructions for disposition of goods.

Please note parcel post charges quoted by us are for delivery in the United States only.

MICHELL'S SUPERB TULIP BULBS

IMPORTANT NOTICE.—It should be borne in mind that **Easter 1934 comes on April 1st**, and it is of importance that florists keep this in mind, particularly when planting and handling their bulbous stock.

Our Tulip Bulbs are grown in the best districts of Holland to insure perfect development and full sized stock. Those who place their orders with us may be sure of getting bulbs that will not only bloom, but also prove true to name.

The asterisk (*) preceding the variety denotes that it is suitable for forcing as well as bedding. The letters E, F and G following the variety indicate their relative time of blooming, the E's being the earliest to bloom. The figures indicate the normal height in inches. Tulip bulbs are packed 250 in a bag; please order in units of this number if possible.

Due to the great fluctuation of the American Dollar in the foreign exchange and the stringent regulation of the Dutch Bulb Industry by the Holland Government, fixed prices on Hyacinths, Tulips and Crocus cannot be made at the time this catalog goes to press.

We assure you, however, that when costs will be established, we shall be in line with all large and reputable houses.

Our quality will be of the best, and all Tulips and Crocus we furnish this season will be top size bulbs only. Our Hyacinths strictly up to sizes as specified in our list.

Why not place your order on open account as so many of our customers are now doing? You are assured of **QUALITY, SIZE, RELIABILITY and PRICE.**

PATRONIZE AN AMERICAN HOUSE, and help us to help **THE NEW DEAL and THE NRA** which we are supporting to the best of our ability.

DARWIN TULIPS

These are the most profitable Tulips for the florist to grow. The flowers being borne on long stems, make them valuable for cutting. Our prices are based on the best quality and for top-sized bulbs.

Afterglow (*Katherine Havemeyer*). F26. Rosy orange, salmon-tinted edge.

Aphrodite. F32. Silvery rose pink, with white base; large flowers.

***Baronne de la Tonnaye**. F26. Rose pink, shading paler towards edges of petals.

***Bartigon**. F24. Fiery red, white base; extra fine for pans.

***Bleu Aimable**. F25. Lavender, with white base, starred blue; a good forcer.

***Centenaire**. E30. Rich violet rose with large blue center; enormous flowers; excellent for border or for early forcing.

***City of Haarlem**. F27. One of the best scarlet varieties; steel blue base with white outline.

***Clara Butt**. G21. Delicate salmon pink; extra fine forcer; good bedder.

***Dream**. G24. Rosy lilac and mauve.

***Farncombe Sanders**. F25. Brilliant scarlet; flowers of large size.

***King George V**. F25. Salmon scarlet-shaded rose, blue base; splendid for forcing.

***La Fiancee**. G30. Deep rose shading to old rose, delicate pink at edges; extra large and a fine forcer.

La Tulipe Noire. G25. Deep maroon black, with a velvety sheen.

***Le Notre**. E24. Rose pink; very early and fine forcer.

***Mme. Krelage**. F26. Rosy lilac with pale silvery margin; fine forcer.

***Matchless** (*Roi d' Islande*). A rare shade of old rose; one of the finest for commercial forcing.

Mrs. Potter Palmer (*Fashion*). G26. Rich purple.

Orange Perfection. G26. Salmon orange, shading to scarlet as it ages.

***Pride of Haarlem**. F26. Rosy carmine.

Darwin Tulip, Princess Elizabeth

***Prince of the Netherlands**. F31. Cerise-scarlet edged rose, blue base; large flowers; good forcer.

***Princess Elizabeth**. F23. Clear pink, changing with age to a deeper shade.

***Professor Rauwenhoff**. F26. Cherry red, blue star at base; large flowers.

***Rev. H. Ewbank**. F20. Light heliotrope edged lavender; very fine.

Scotch Lassie. F26. Purest deep lavender, inside shadings darker, base dark blue, flowers large and of good substance.

***The Bishop**. F30. Deep violet, center white edged blue; large flower; a new introduction.

Venus. F30. Silvery rose, white base with pale blue ring.

***W. Copeland**. E24. Delicate lavender.

***William Pitt**. E24. Deep crimson; splendid for early forcing.

Yellow Giant. E28. Deep golden yellow; large globular flowers, on tall, stiff stems.

***Zwanenburg**. F28. Pure sparkling white; large fragrant flowers; fine forcer.

Darwin Mixed. All colors.

TRIUMPH TULIPS

An entirely new type of great beauty; they are a cross between Single Early and Darwin varieties; growth vigorous; flowers outstanding; bloom early or before the Darwins; the varieties listed are excellent for forcing or the garden.

Canada. 20. A beautiful variety, lilac rose, striped white.

Elizabeth Evers. 21. Very early forcer; color, a beautiful shade of pink.

Fokker. 22. Very early and easy forcer; large blooms; color, bright red, bordered golden yellow.

Mr. Zimmerman. 22. Soft fuchsia red, fading to white toward the pure white base.

Telescopium. 23. Reddish violet, inside violet blue; a large and strong flower.

May-Flowering Tulips (Single). Mixed.

May-Flowering or Cottage Tulip

A FEW DON'TS

Don't leave bulbs in paper bags or cases when they are damp.

Don't plant bulbs in soil in which bulbs have been grown before.

Don't put flats or pans on top of the ground after planting.

Don't bury the flats or pans on a warm, sunny, too wet or too dry a place; choose a cool sunny corner, where the soil is sufficiently moist at all times.

Don't take the bulbs into the greenhouse unless well rooted and the buds far enough advanced.

Henry F. Michell Co. give no warranty, expressed or implied, as to the description, purity or productiveness of any seeds, plants or bulbs they send out, and they cannot be in any way responsible for the crop. If the customer does not accept the goods on these terms, he must notify us at once, and we will give instructions for disposition of goods.

TULIPA GRULLMANNII (CHAMELEON TULIPS)

A new type obtained by crossing Darwins with Species tulips; similar in habit to Darwins; their remarkable feature, however, is the wonderful coloring and markings, as well as the unusual size of the flowers.

Grisilde. 26. Inside creamy white, turning primrose yellow towards center, outside white with a faint red spray on center of outer petals, large greenish black base; large oblong-shaped flower; will last for two weeks after being forced.

Inga Hume. 24. Inside deep yellow, slightly sprayed red, outside red, with broad, sharply lined yellow edge, large black base; large, perfect-formed flower on erect stem; highly recommended for forcing, as it will outlast any other variety.

MICHELL'S BULBS FOR ROCK GARDENS

The demand for rock gardens is so great, there is no doubt but that a great many florists and landscape gardeners have a considerable number of inquiries for the proper arrangement of such a garden and calls for planting material for same. We have compiled a carefully selected list of bulbs best suited for such purposes and which can be successfully grown in conjunction with perennials. The proper arranging and planting of such a garden will certainly increase your trade. Our facilities are at your command.

DOUBLE MIXED TULIPS

Early Varieties, Superfine Quality.

Double Early Tulip

MICHELL'S SUPERB TULIP BULBS

The asterisk (*) preceding the variety denotes that it is suitable for forcing as well as bedding. The letters A, B and C following the variety indicate their relative earliness to bloom, the A's being the earliest, followed by the B's and later by the C's. The figures indicate the normal height in inches. Tulip bulbs are packed 250 in a bag; please order in units of this number if possible.

If Tulip bulbs are wanted by Parcel Post add 10c. per doz., 25c. per 100, for postage.

SINGLE TULIPS IN MIXTURE

Our mixtures are made up from large flowering varieties with a wide range of bright colors and will give excellent satisfaction.

Early Varieties, Superfine Quality.

PARROT OR DRAGON TULIPS (Late)

These belong to the late flowering class and on account of their peculiar markings and shadings are much in demand. The petals have feathered edges and in addition to other colors combine shades of green.

Fantasy. Beautiful, true salmon-rose, with ragged edges and fantastically shaped petals, outside of which are marked apple green; erect, long stems; grows about 21 inches high.

Mixed. All colors.

Single Early Tulip, Rising Sun

BUNCH FLOWERED TULIPS (New)

Monsieur Mottet. Ivory white; produces 4 to 6 blooms on a stem; an excellent cut flower variety; height, 24 inches.

BOTANICAL OR SPECIES TULIPS

Botanical or Species tulips are much in demand for rock gardens and those florists and landscape gardeners catering to such trade should recommend them at every opportunity. They make excellent combinations when grown with perennials or in front of shrubs or in the border.

- *8 **Clusiana** (*Lady or Candystick Tulip*). Outer petals cherry red, inner petals creamy white, with violet base.
- 11 **Eichleri**. Immense crimson-scarlet, shaded orange; black center marked with gold.
- 10 **Greigi**. Large, brilliant orange-scarlet flowers, with yellow and black center.
- 6 **Kaufmanniana**. Creamy white, tinged carmine; one of the earliest.
- 14 **Marjoletti**. Soft primrose shaded carmine red at base; early bloomer.
- 15 **Sylvestris** (*Florentina Odorato*). Rich yellow, fragrant flowers.

LILY FLOWERING TULIPS

A type now very popular; the varieties, some of which were previously listed among the Cottage tulips, were obtained by crossing Darwins with Retroflexa tulips. They bloom at the same time as the Breeders, Cottage and Darwins; their long recurved petals give them a lily-like appearance.

- Alaska**. C28. A beautiful new hybrid; long flowers, outer petals reflexing slightly; color, pure golden yellow.
- Artemis**. C30. Carmine rose with pure white base; reflexed petals; long stems.
- Picotee** (*Maiden's Blush*). C20. White with distinct pink-edged border, which suffuses the flower as it ages.
- Sirene**. B20. Beautiful cerise-pink, margined pale pink with white base; a fine forcer.

SPECIAL NOTICE.—We have exercised unusual precaution to see that our growers send us full size bulbs as listed in centimeters; some offerings are being made at low prices under the headings of **First, Second and Third Size**, without reference to the measurements.

PLEASE NOTE.—Original packages of Hyacinth Bulbs contain the following quantities: First size, 50 bulbs; second size, third size, and unnamed, 100 bulbs; miniature, 250 bulbs; if possible please order in these unit quantities.

As there is a slight variation as to the time of blooming of the various sorts, we have indicated their relative time of flowering by letters following the variety, the A's being the earliest, the D's the latest.

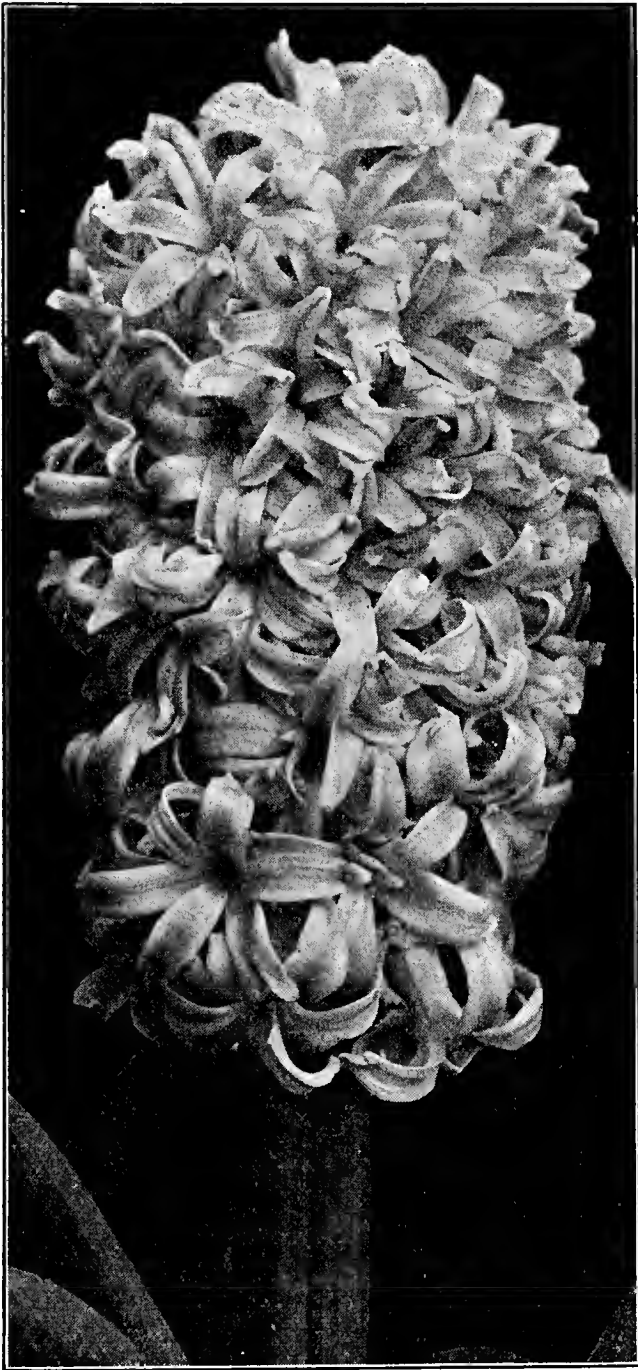

Due to the great fluctuation of the American Dollar in the foreign exchange and the stringent regulation of the Dutch Bulb Industry by the Holland Government, fixed prices on Hyacinths, Tulips and Crocus cannot be made at the time this catalog goes to press.

We assure you, however, that when costs will be established, we shall be in line with all large and reputable houses.

How to Prevent Hyacinth Flowers from Splitting or Popping

When removing Hyacinths from outside pits into the greenhouse be sure that they are moved quickly and pots covered at all times, to prevent exposure to low temperatures. If not done during this period the flower spikes will either appear split or will blast, ruining your crop. Be sure at any change in temperature that you make, that it is gradual, otherwise you will encounter the above conditions.

MICHELL'S HYACINTHS

PLEASE NOTE.—Original packages of Hyacinth Bulbs contain the following quantities: First size, 50 bulbs; second size, third size, and unnamed, 100 bulbs; miniature, 250 bulbs; if possible please order in these unit quantities.

DON'T LET YOUR BULBS FREEZE

Every year near Easter time, when the florist is looking forward to a banner lot of Hyacinths, Tulips and Narcissus, for sale at that season, there are some who suffer losses they could easily avoid by a little forethought. When potting bulbs give them a thorough watering and place in a frame—if you have one—on a bed of cinders or ashes, this will allow the excess moisture to drain away. When the bulbs are potted and placed they should be covered with screened ashes or sand to a depth of at least three inches above the top of pots. When permanent cold weather sets in, cover with long straw manure (do not use leaves). During severe winter and on cold nights, keep sash on the frames, you cannot expect the best results from bulbs if they are allowed to freeze excessively, it ruins the flower germ.

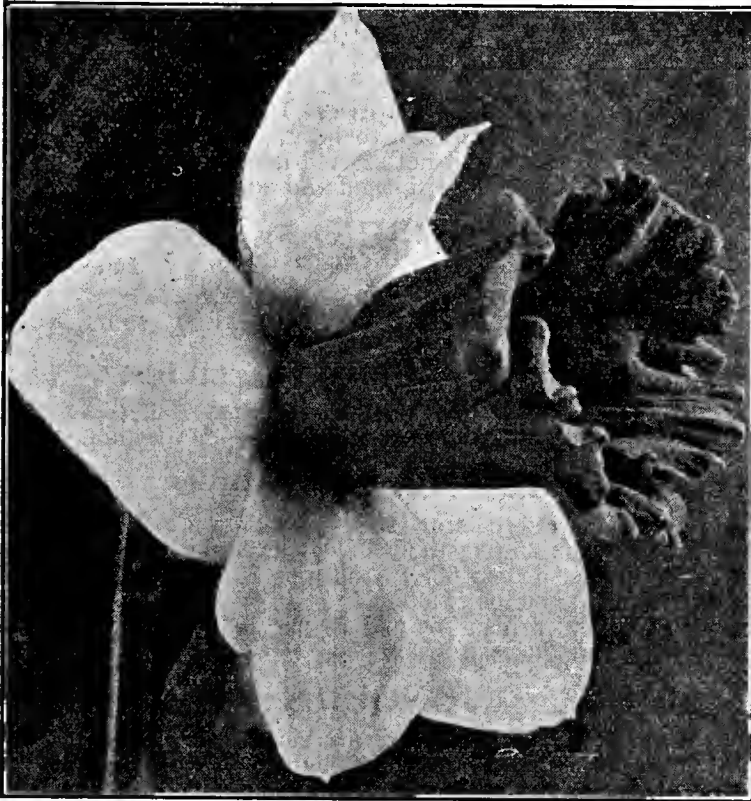

It is, of course, understood, that this suggestion applies to northerly latitudes. In all cases bulbs should be unpacked and stored or planted upon arrival.

AMERICAN GROWN

We offer best grown stocks, produced by the largest and most reliable growers in this country. The quality and size we furnish at reasonable prices should not be compared with cheap and inferior grades often offered, results of which are always questionable. You cannot afford to speculate with your crops. Procure your bulbs from us and be safe.

The letters following the varieties indicate their relative time of flowering, the A's being the earliest to bloom, the C's the latest.

If Narcissus bulbs are wanted by Parcel Post, add 10c. per doz., 30c. per 100 for postage.

CALLA LILIES

WHITE CALLAS (AETHIOPICA) (Ready Now)

Clean healthy bulbs.	Doz.	100	1000
1 1/4 to 1 1/2 inches in diameter.....	\$0.75	\$5.00	\$45.00
1 1/2 to 1 3/4 inches in diameter.....	1.50	10.00	95.00
1 3/4 to 2 inches in diameter.....	2.25	15.50	150.00
2 to 2 1/2 inches in diameter.....	3.00	21.50	210.00

White Callas are generally kept too moist. It is reproduced from a corm or root and not a bulb, in many ways having the characteristics of a potato and is greatly susceptible to storage rots and soil fungus disease. It is easy to carry these troubles over in soil that is used in the greenhouses from year to year and oftentimes poor results are laid to the corm, where the principal trouble is in the soil and handling; be very careful of the source of your soil. As the corm is subject to many bacterial and fungus rots, present in a great many soils, our growers recommend soaking the corms in a solution of one part commercial formaldehyde to 50 parts of lukewarm water for a period of one hour; the corm should be thoroughly dried after treatment before planting. The corm should not be stored for a great length of time, but should be planted as soon as possible after delivery. The soil should have perfect drainage, although a fairly retentive soil is best. Do not use a surplus of manure as it is conducive to fungus conditions. A good watering should be given at planting time; then exercise care not to keep the soil too wet until the root action is well begun. As an indication that oftentimes the trouble is in the soil and not the corm, ordinarily plants not doing well can be taken up, affected parts taken off, the corm reset under proper conditions and brought through into a healthy state to throw a normal crop of blossoms. It is generally conceded that calla corms from a warm, moist southern section do not have the vitality and are more subject to disease than those grown in the cooler northern latitudes, such as central and northern California.

Buy your corms from us; we handle vitality bulbs only, grown by the largest grower on the coast.

GODFREY EVERBLOOMING CALLA (Ready Now)

The Godfrey Calla is pure glistening white, almost as large a flower as the Aethiopica; set on a more slender stem, however, it carries itself in a more graceful manner. Size for size, which means a great deal in benching or potting, Godfrey roots should produce 40% to 60% more flowers than the Aethiopica; it is a more thrifty grower and stock seems generally less susceptible to disease. We cannot recommend too highly the planting of the Godfrey Calla under proper conditions as a money-maker.

HARDY JAPANESE LILIES

Special Notice Regarding Delivery

Most of the varieties listed below will arrive in time for Fall planting. It often happens however that some varieties reach us too late for Autumn planting. Orders for these will be held for early Spring delivery. When ordering please specify if you desire Fall or Spring delivery.

It is advisable to prepare your lily bed in the early Autumn and cover with 3 or 4 inches of litter, this will prevent freezing and will permit safe planting of the late arrivals.

ANEMONE (Ready in October)

Excellent for cut flowers and sell readily with any florist who has a store trade. Upon arrival of bulbs, soak them in lukewarm water, for from 12 to 18 hours before planting; use virgin soil that is not heavy and which has been lightly mulched with peat moss. Plant in deep bulb pans or flats, allowing about 2 inches of space each way; water sparingly until well established and carry them over in a deep cold frame; bring into a 45% greenhouse about the middle of January and let them develop slowly.

Do not attempt to force or overwater; grown in this way they should flower the latter part of March, or early in April.

BRODIAEAS

Choice Mixed. A small bulb producing grassy leaves near the ground; slender, stiff stems with small waxy flowers in shades of blue and purple. Doz., 60c.; \$3.75 per 100; per 1000, \$32.50.

FANCY LEAVED CALADIUMS

Our list is composed of the best named standard and newer sorts, including the best of the Brazilian types and cover a wide range of the brightest colorings and markings which are difficult to describe accurately. The bulbs should be started in damp moss with plenty of bottom heat and an occasional dampening.

Do not allow them to get chilled, and at all times grow them in a warm, shaded place.

Note. It often happens that the finest colored varieties do not produce the largest bulbs. The bulbs we furnish can be depended upon for best results.

LEUCOJUM VERNUM (Spring Snowflake)

A fine hardy spring flowering bulb with flowers like a Snow-drop, but larger in size. 65c. per doz.; per 100, \$4.00; \$35.00 per 1000.

LILY OF THE VALLEY (Ready in December)

Fancy Giant Flowering (New Crop). Large pips, often producing 15 or more bells to the spike. Prices will be established.

LILY OF THE VALLEY

Bundles or Clumps (For Outdoor Use Only)

Excellent for landscape work. Bundles contain good size pips, all of which will flower; they are imported from abroad, carefully packed and can be stored in a cold cellar. These pips should not be compared with native grown stock which usually throw an average of 2 to 3 flowers to the clump; pips are washed clean and packed in peat moss thus making transportation light. We can make shipment of these from November until May. The Japanese Beetle quarantine does not affect the shipment of this stock. 40c. per bdl.; doz. bdls., \$4.25; \$33.00 per 100 bdls.

COLD STORAGE LILY OF THE VALLEY

GIANT FLOWERING

For a number of years we have made a specialty of these and our strains are reputed to be among the finest. Prices upon application.

**ORNITHOGALUM
THRYSOIDES AUREUM**

(The Gold Star Flower of South Africa)

A new cut flower sensation from the West. Requires the same culture as freesias; planted in September it commences to flower in March and lasts until early May. Plant grows 10 to 15 inches high and produces star-like flowers, in a dense umbel, having a diameter of 4 to 5 inches; the individual flowers measure 1½ inches across. Color, lustrous yellow, blooms emit a honey-like fragrance. Surely an easy crop to grow. As supply is limited, orders will be filled in strict rotation, so make your reservations early. Per doz., \$2.50; \$16.00 per 100.

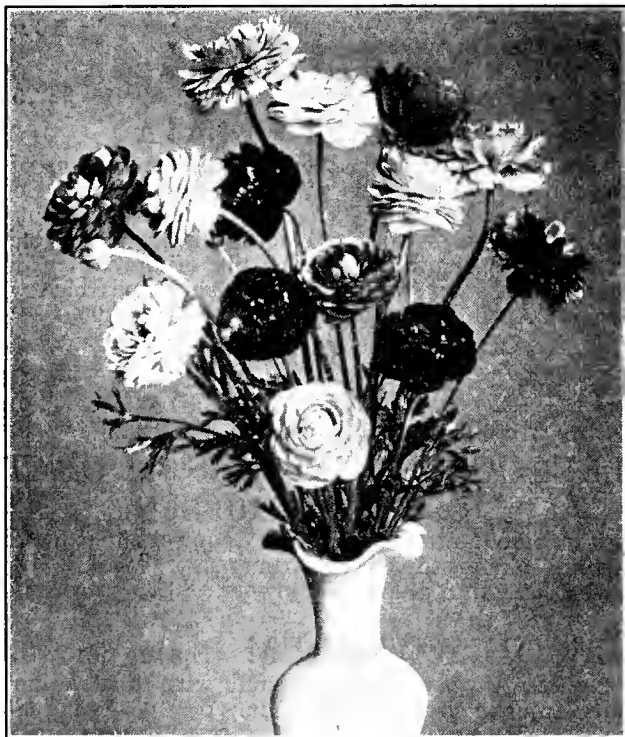

ORNITHOGALUM (Star of Bethlehem)

Arabicum. An attractive flowering bulb for either indoor or outdoor culture; petals pure white, streaked light green, with black flower center. For indoor culture, treat like hyacinths. 65c. per doz. (by P. P., 75c.); per 100, \$4.50 (by P. P., \$4.80); \$40.00 per 1000.

IMPORTANT—The stock offered by us is the best obtainable and will give best satisfaction to the most critical buyer. However, we cannot guarantee the success of the grower who purchases the stock, unless the stock turns out not being true to name, and in such case, our liability is limited to the invoice value at the time of shipment.

We recommend all shipments to go by express, except small shipments, which can readily go by mail.

If shipments arrive in bad condition, accept them and receipt for them accordingly and enter claim to the transportation company. We, of course, will assist you in every possible way.

Any complaints as to the quality cannot be entertained, unless made to us within two days after receipt of goods.

HENRY F. MICHELL CO.

KALANCHOE GLOBULIFERA COCCINEA

A real Horticultural Sensation and the most valuable pot plant ever introduced.

Plants are about 12-14" tall and if grown in a 6" pot will bear about 50 flower stems, resembling small Bouvardias, the color being brilliant cerise scarlet. Requires cool treatment, 50 to 55°. The plants will commence to flower in February and the flowers will remain in perfect shape for 3 months. Excellent as an Easter pot plant. The plants shipped out by us will have several seedlings planted in one pot, thereby assuring specimen plants. Kalanchoe was awarded Gold Medal at New York Flower Show and Honorable Mention at Philadelphia Show.

Testimonial on Crassula Rubicunda!

Chatham, N. J., June 7, 1933.

We are sending you herewith Photographs of Crassula Rubicunda "Brilliancy" as grown by us this Spring. This plant has been the subject of much interest from the time we received it last Fall.

The apparent slowness with which the buds develop has caused us to become discouraged at times, but when, at length, we have the finished product, our hopes and expectations are exceeded.

We have before us magnificent flowering pot plants. Necessarily with new plants we must feel our way in order to arrive at a knowledge of their habits and possibilities, but from our many experiments, we are convinced that in Crassula "Brilliancy" we have a pot plant which will prove to be just what we have been looking for, SOMETHING NEW FOR MOTHER'S DAY.

FOR ROCK GARDENS, LANDSCAPING, CUT FLOWERS AND HOME GARDENS

IMPORTANT FOR FLORISTS

We are presenting herewith our Wholesale Perennial List; checking through, you will note that we are listing one of the best assortments for all types of plantings. All plants offered are field grown, except where noted, developed to a point where, after planting in their permanent locations, they will give immediate results.

As time goes on, there are more florists realizing the fact that the use of perennials is an important factor in their business throughout the dull summer months.

Within the past few years many florists have made plantings of perennials in some vacant land adjoining or close to their greenhouses. They are finding it more important every year to be able to cut outdoor flowers while they are changing soil and preparing their houses for their usual run of greenhouse stock.

We are advised by many leading florists, who have made a practice of this, that the benefits derived from a perennial planting are beyond explanation by mere words. While the greenhouse is idle, perennials fill the gap in the way of supplying fresh flowers which are suitable for general florists' use and thus prevents them from ordering flowers from distant wholesale markets. They are able at all times to cut fresh flowers for their special work throughout the months of July, August and September, when there are practically no greenhouse flowers to be had. An investment in perennials is indispensable and pays returns each year that are many times larger than the original amount invested.

Use Perennials for Summer cutting, for Forcing in the Winter and for Landscaping and Rockeries. Varieties marked (*) are especially suited for cutting, while varieties marked (R) are indispensable for Rockeries.

MARIGOLD (African)

Guinea Gold. A valuable novelty that has created a sensation as a most desirable cut flower; can be very easily grown under glass. Seed sown in October, transferred into 3 inch pots and later into a solid bench, spacing the plants 1 foot apart, will produce a fine crop of very salable, golden yellow flowers about Christmas. Trade pkt., 50c.; \$2.50 per oz.

MIGNONETTE

Michell's Colossal. Immense spikes from 18 to 24 inches high. For December flowering, sow seed during September; sow a few seeds to a 2 1/2 inch pot; later thin out to one plant; bench 1 foot apart and grow in a house of 45°. Trade pkt., 50c.; \$6.00 per oz.

NEMESIA

Strumosa Suttoni. Colors vary from creamy white to deep orange and carmine. Seed can be sown in October, either in a bench or flat and later on transplanted; will flower in December and January; for later flowering sow in January. Trade pkt., 40c.; \$2.00 per oz.

PANSY

Michell's New Swiss Giants. This new strain has enormous flowers with long stems and contains many unusual colors, such as salmon, pink, red, etc., which are all beautifully blotched; excellent for greenhouse forcing. Plants grown from seed sown the latter part of August and during September, lifted during October and November and benched in a 45° house, will start to bloom from January on and will keep flowering well into May. Trade pkt., \$1.00; \$1.50 per 1/8 oz.; 1/4 oz., \$2.75; \$10.00 per oz.

SALPIGLOSSIS

Emperor Mixed. A very valuable and graceful cut flower. Seed can be sown in November, on a solid or ground bed, in rows 12 inches apart, the plants later thinned out to 4 inches apart in the rows; should be grown in a temperature of 45° to 50° and will produce a fine crop of flowers in March; for April and May flowering, sow in February. Trade pkt., 25c.; \$1.00 per oz.

SCHIZANTHUS (Butterfly Flower)

Garraway's Hybrids. Contains a wide range of colors. For January flowering, sow seed in September; pot up and bench and keep shifted until in 4 inch pots; can be planted in benches 15 inches apart and grown along in a house of 48°. Trade pkt., 40c.; \$2.00 per oz.

STATICE

Suworowi. This popular pink-flowering annual Statice is very easily grown. Seed sown in the early Fall and the plants later on benched out of 2 inch pots in a 50° house, will flower during February and March. Trade pkt., 20c.; 75c. per oz.

STOCKS

GIANT IMPERIAL OR BISMARCK

Of tall, branching habit, 24 to 30 inches high. Sow seed in September or October, transfer into 2 1/4 inch pots and later on into benches; plant 10 inches apart in a house with a temperature of 50°; care should be taken to save the smallest and stockiest plants as these invariably produce double flowers. Vogt's New Double Cyclamen

CYCLAMEN

VOGT'S NEW DOUBLE FLOWERING

This is the first double type to be introduced in separate colors and undoubtedly a worth while novelty; it has proven a sensation wherever it has been shown. It has a distinct double flower of ten petals and comes 80% true from seed. Flowers very full and the plant in full bloom gives the effect of having twice as many blooms as the average strain; it will produce 30% more blooms than the single types and is also pleasingly fragrant. We are offering a limited quantity of seed in the following three varieties.

Prosperity. Described by many as an Azalea type, a flaming rose with distinct silvery edging; extra fine; a heavy and full bloom.

Admiration. So called from its many admirers; a beautiful salmon rose with shaded eye, very bright.

Rosea. A soft rose with coral cast; shading light at tips of petals, a very pleasing shade; a true Multiflora type, having perhaps more flowers, but not quite so large as the above types.

Price, either of the above, \$3.00 per 100; per 1000, \$25.00.

Michell's Giant Show

We offer seed from the most celebrated and widely known Cyclamen seed grower in Germany. The seed bearing plants are of the very highest type, of robust habit, large blooms and with well marked foliage. The stock is offered in original packets.

MICHELL'S WINTER FLOWERING SPENCER OR ORCHID SWEET PEAS

NOVELTY SWEET PEAS FOR FALL 1933 EARLY OR WINTER FLOWERING

Sensation (Duplex). We are proud to introduce this new Winter Flowering Sweet Pea as an exceptionally fine novelty for the Fall season. The large duplex petalled flowers give the blooms the appearance of being double. Color, a clear-toned, luminous Geranium pink which is a new shade in the early varieties and excellent under artificial light. The flowers (usually fours) are large and well placed on long, strong, wiry stems; a strong vigorous grower and free bloomer. The general characteristics of this variety make it the outstanding Sweet Pea of the year and we believe that, as its name implies, it will create a sensation wherever grown. Per oz., \$2.00; \$7.00 per ¼ lb.; lb., \$20.00.

Eleanor Blue. This is another good novelty in the new and popular Eleanor Blue shade; a clear light blue with a delightful silver sheen; the flowers are exceptionally large, beautifully frilled and of perfect Spencer form, with fours predominating, on enormous long, strong stems. This variety is pleasingly fragrant and a very free bloomer. Per oz., \$1.50; \$5.00 per ¼ lb.; lb., \$16.00.

Susanna. Large flowers of a rich carmine color, on long stems; an improvement over existing varieties in this color. Per oz., \$1.50; \$5.00 per ¼ lb.; lb., \$16.00.

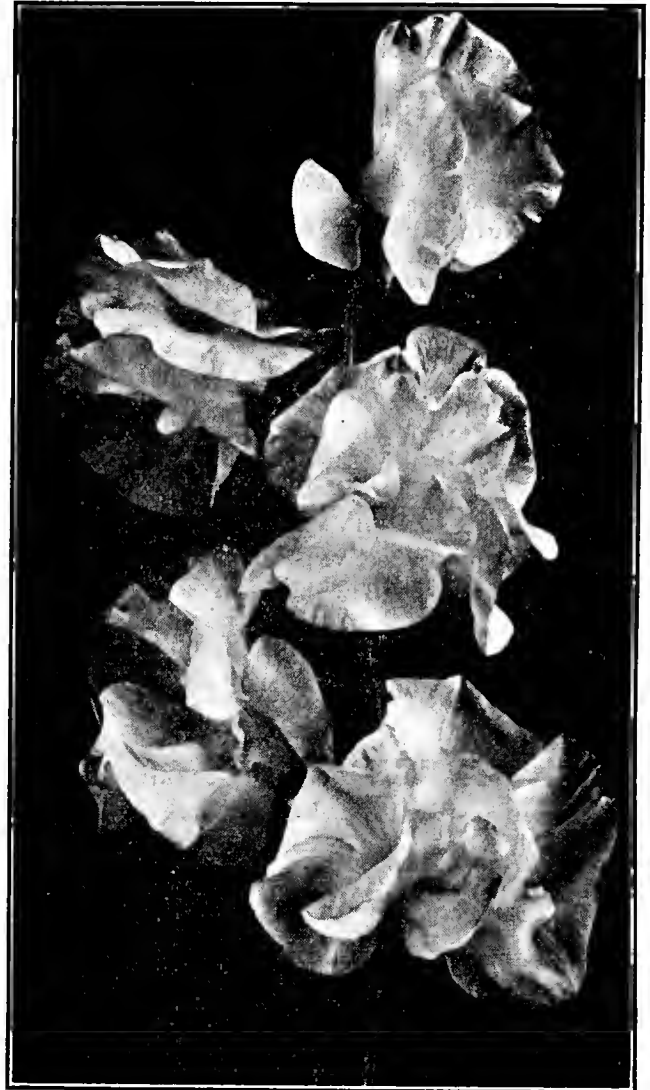

Eleanor Blue and Sensation make an excellent color combination.

Michell's "Distinctive" Stocks

Stocks are one of the most profitable flowers to raise, provided you sow the right strains. For years we have made a specialty of supplying "Distinctive" strains, which are easily distinguished by their superior quality, strong germination and a remarkably small percentage of single flowers.

GIANTS OF CALIFORNIA

Santa Maria

A new double pure white variety, of exceptional merit; giant flowers on a long flowering truss; of splendid branching habit; the long stems make it a very desirable cut flower for the florist. This stock will produce a very high percentage of doubles. Trade pkt., 75c.; \$2.25 per 1/4 oz.; oz., \$8.00.

NEW GIANT DOUBLE EXCELSIOR

Column Type, Non-Branching

This new type produces one enormous spike 2 to 3 feet in height and is especially adapted for greenhouse culture, as the plants can be grown close together; blooms about ten days earlier than Bismarck and produces a high percentage of doubles. We offer a select list of the most popular colors.

MICHELL'S MUSHROOM SPAWN PURE SPORE CULTURE SPAWN

This spawn is made in quart milk bottles under absolutely sterile conditions. The bottle and materials are sterilized under steam pressure, so that every mold, weed seed or insect is destroyed and each bottle contains nothing but the pure spawn; each jar contains enough for 30 to 40 square feet. The sterile spawn is dried thoroughly and each piece wrapped in tissue paper and contains full instructions.

Per carton.....	\$0.85	25 cartons.....	\$18.75
12 cartons.....	9.50	60 cartons.....	42.00

If wanted by Parcel Post, allow 10c. per carton for postage.

PURE CULTURE BRICK SPAWN

A crop is produced with good spawn, a little care and patience in about 5 to 10 weeks, and continues in bearing about two months. New beds can be started at intervals which will give a supply the entire season. Ask for our Free Booklet on Mushroom Culture. 1 Brick will spawn 8 to 10 square feet.

RHUBARB ROOTS

(Ready October 1st for Fall planting; April 1st for Spring planting.)

Rhubarb is readily obtainable in winter by planting four year old clumps in good soil in a cool cellar; a barrel or peach basket, either without a bottom, should be placed over each root to draw the top up. Also does well under greenhouse benches. In the spring the roots may be planted out for use another season. The roots should be subjected to a slight frost before planting indoors. **Victoria.** \$1.00 per doz. (by Parcel Post, \$1.20); per 100, \$7.00; \$60.00 per 1000.

Our connections with the best grass seed producers in America and Europe place us in a position of advantage for our supplies, chiefly because of the great volume of grass seeds we contract for. Some people have an idea that price is the only factor to consider in grass seed buying; while this has its place, it should be an after thought. "Quality is paramount." We are always pleased to submit samples with prices for comparison and let you be the judge.

Prices subject to market changes.

Crimson Clover

CLOVERS

Alfalfa or Lucerne (*Medicago Sativa*). (Non-irrigated, Western-grown seed.) Sow during May, August and September, not less than $\frac{1}{2}$ bushel (30 lbs.) per acre, preferably with no other crop. Price on application.

Alfalfa (*Grimm Strain*). Claimed to be hardy in any and all regions; a heavy yielder and of deep-rooting ability. It requires about 15 to 20 lbs. of Grimm Alfalfa to seed an acre on account of its great root system. Price on application.

Alsike or Swedish Clover (*Trifolium Hybridum*). One of the best for mixing with timothy; it is perfectly hardy in every climate or soil condition; grows 1 to 2 feet high. Sown early in the Spring or late Summer and early Autumn, 10 to 15 lbs. per acre alone or 8 lbs. with timothy. Price on application.

Bokhara or Giant Sweet Clover (*Melilotus Alba*. Syn. *M. Leucantha*). Used either as a feed crop or as a fertilizer to plow under. Grows from 3 to 5 feet high, thriving on almost any kind of soil. Sow 15 lbs. per acre in Spring or Fall. Price on application.

Crimson Clover (*Trifolium Incarnatum*). This is used principally for soiling or green manuring, for which purposes it is highly valuable. If desired for feed, cut it just before it flowers. When desired for green manure, it should be allowed to mature; its height is from 1 to 2 feet. Sow any time from April to October, 20 lbs. to the acre. Price on application.

Mammoth Red Clover (*Trifolium Pratense Perenne*). This differs from the "Medium," being of a ranker growth and yielding more fodder per acre. Sow in early Spring or in the late Summer and Fall, using 20 lbs. per acre alone, or with other crops, 10 lbs. per acre. Price on application.

Red Clover, Medium (*Trifolium Pratense*). More widely known and used than any other; used principally for hay purposes. Height from 18 inches to 2 $\frac{1}{2}$ feet. Sow early in the Spring or in the late Summer and Fall; if alone, 20 lbs. per acre; if with other crops, 10 lbs. per acre. Price on application.

White Dutch or Lawn Clover (*Trifolium Repens*). Choice re-cleaned seed. Sow 10 to 12 lbs. per acre if alone or 5 lbs. if sown on old turf or with other crops. 6c. per oz.; $\frac{1}{4}$ lb., 20c.; 35c. per $\frac{1}{2}$ lb.; lb., 60c. (by parcel post, 70c.); \$2.75 per 5 lbs. (by parcel post, \$2.90); 10 lbs., \$5.25 (by parcel post, \$5.45); \$12.50 per 25 lbs.; 100 lbs., \$48.00. Price for larger quantities on application.

DWARF ESSEX RAPE

An indispensable green food for sheep and hogs; produces enormous crops. Sow 6 lbs. per acre, from April 1st to October 1st. Price on application.

WINTER RYE

Rosen. An exceedingly heavy yielder; large, full heads. Sow 1 $\frac{1}{2}$ bushels per acre.

Pennsylvania White.

Prices on Winter Rye quoted upon application.

Timothy

RECLEANED TIMOTHY

Our stock is of very best quality; for sowing among wheat as a second-year hay crop or for sowing alone for a first-year hay crop this is extensively used. Sow $\frac{1}{2}$ bu. per acre alone or 8 to 10 quarts with wheat. Price on application.

WINTER VETCH (*Vicia Villosa*)

True Sand or Hairy Vetch. Our stock of this is the true type; will live throughout the Winter. Sow from August 1st to October 1st, broadcast 1 bu. per acre, to which we suggest adding a bushel of Winter rye or wheat. In the Spring it can be plowed under as green manure, or when in flower, cut for hay. Price on application.

SEED WHEAT

Forward (*Bald*). A wonderful stooler; heavy yielder; very hardy; straw thick and of good length; grain dark colored, of hard texture; medium early in ripening.

Leap's Prolific (*Bald*). A most prolific variety indeed. The grain is hard, of medium size, red and very plump.

Miracle (*Bearded*). This is a tremendous stooler, one grain producing as many as 25 stalks, with often 45 grains to each head or stalk. The introducer impresses upon us very forcibly not to recommend the sowing of more than one bushel per acre.

Pennsylvania 44 (*Bearded*). A new variety developed from the Fulcaster, but a much larger yielder; grains red; purple straw and white chaff.

Red Wave (*Bald*). Heavy yielder; heads extremely long, with grains closely set; the grain is hard, large and dark red; straw long and stiff; ripens mid-season.

Prices on Seed Wheat will be quoted on application.

We can also supply at the proper season, Barley, Broom Corn, Buckwheat, Canada Field Peas, Flax, Kaffir Corn, Millet, Oats, Soja Beans, Speltz, Spring Rye, Spring Vetch, Spring Wheat, Sugar Cane, etc.

NEPONSET BLACK PAPER POTS

For Growing

This new development makes it possible to take advantage of the economy, ease and convenience of paper pots for the full growing period of young plants without any damaging or retarding of root growth. The special water-proofing treatment of these pots seems to encourage healthy growth; not necessary to use clay pots.
